GAYOT THE RESTAURANT ISSUE

TOP 10 NEW RESTAURANTS IN THE U.S. 2007

At GAYOT.com, we take pride in bringing you news about the most recent restaurant openings and reviewing them as soon as we can to let you know if they're worth your time and hard-earned money. When we discover extraordinary dining experiences, we add them to this list. The ten restaurants below represent the best of U.S. eateries that have opened within the last twelve months. Among them, you'll find jewel box locales serving stellar regional cuisine and decidedly different dining rooms from some of the nation's top chefs. One of our favorites, Tinto, is already so popular that it's doubling the size of its dining room. We've also listed new restaurants that didn't quite make our top ten, but could make yours.
